5. Collective bargaining with CCSS—update:

We received a letter from CCSS that states that they do not wish to bargain with NPS. Nexus union staff needs to have a meeting with the union to discuss this, as we probably still need to sign a contract with the CCSS. Regardless of the outcome of the meeting, a member of NPS must be present to look over the contract before it is signed.

6. WRCUP update:

Plans are going well, so far there are 85 people registered, target was for 70 people. Erin and Renee are looking for donations for the delegate bags. Alcohol may or may not be served during dinner.

7. Annual General Meeting:

Tentatively scheduled for Wednesday, April 13th at 4pm. Darin will double check ACP first year students schedule to ensure some of them will be free to attend. Nexus will run ad in last two issues to notify the student body about the meeting.

8. Office space negotiations with the CCSS:

NPS will have to negotiate with the college to ensure we are included in the new arrangements. How should we approach this? We would like comparable space to what we currently have. There is no official position at the moment, but Nexus was not included in the CCSS's plan. Need to schedule a meeting with the CCSS external executive, this will wait until new board comes in, so will schedule for after April.

9. Staff relocation report:

Going very well, Greg and Erin's leadership on the last few issues has been excellent; it is advantageous for Nexus to have new eyes.

10. Adjourn @ 12:07

Approved by Darin, seconded by Marty
